DAY ONE

1

Old Town, Neon Night

• Morning

Sensoji Temple

Sensoji opens at 6:00 and the main hall is calmest before 8:00. Enter through Kaminarimon gate, then walk Nakamise-dori as shutters lift.

• Evening

Shibuya

The Shibuya Scramble runs all night, but the cleanest overhead view is from the Starbucks on Tsutaya's second floor or Shibuya Sky until 22:30.

DAY TWO

2

Shrines and Skyscrapers

• Morning

Meiji Shrine

Enter Meiji Shrine from Harajuku Station via the south torii. The forest path takes about ten minutes, and grounds open at sunrise.

• Afternoon

Shinjuku

For Shinjuku's free observation decks, head to the Metropolitan Government Building, north tower, open until 22:00. Omoide Yokocho's lanterns light up around 17:00.

DAY THREE

3

Mountains and Hot Springs

• Morning

Hakone

From Shinjuku, the Romancecar to Hakone-Yumoto takes 85 minutes. Buy the Hakone Free Pass at Odakyu Sightseeing Center for ropeway, pirate ship, and buses.

4

Kyoto Arrival

● Morning

Fushimi Inari

Take the JR Nara Line to Inari Station, two minutes from the first torii. Before 7:00, the upper trails toward Yotsutsuji are nearly empty.

● Evening

Gion

Gion's Hanamikoji-dori is busiest between 17:00 and 19:00, when geiko head to ozashiki. Photography is banned on the private side streets.

DAY FIVE

5

Bamboo and Gold

● Morning

Arashiyama Bamboo Grove

The grove entrance sits ten minutes north of Saga-Arashiyama Station. Aim for before 8:00; afterwards, the path through Okochi Sanso is quieter.

● Afternoon

Kinkakuji

Kinkakuji opens at 9:00 and closes at 17:00. The garden path is one-way, so the best pavilion view is the first viewpoint after the ticket gate.

DAY SIX

6

Deer Park Detour

● Morning

Nara

From Kyoto, the Kintetsu Limited Express reaches Nara in 35 minutes. Deer gather around Nara Park; buy shika senbei only from the licensed vendors.

DAY SEVEN

7

Castle Farewell

● Morning

Osaka Castle

Osaka Castle Park opens 24 hours, but the keep runs 9:00 to 17:00. Enter via Otemon gate on the southwest side for the classic moat approach.
